Communication skills

Thanks to my experiences of volunteering abroad, and having worked as a waitress for many years, I learned different ways of communicating with people around me, I learned how to express myself in a clear and respectful way, and how important it is to listen to the given directives.

Organisational / managerial skills	Through the participation in the teachers-students commission I learned instead how to present problems and suggest solutions, in collaboration and together with professional figures other than mine.
Job-related skills	Flexibility, empathy towards colleagues, willingness to expand my knowledge, comfortable in teamworking
Driving licence	B
